

“Living Life in the Affirmative”

WORKSHOP

FOCUS OF WORKSHOP

Many individuals have great intentions and a strong desire to move forward with fulfilling and manifesting their life goals. But:

- They are paralyzed by fear.
- They are unaware of or do not know how to eliminate self-sabotaging patterns of belief, behavior and decision-making.
- They have not clearly defined their current goals and overall life vision.
- They have not developed and implemented a clear plan of action for accomplishing their life goals.
- They lack accountability in following through with their plan of action for accomplishing their life goals.

The “Living Life in the Affirmative” Workshop will enable you to:

- Develop a more positive mindset, thought system (of belief) and feeling of faith and confidence that you can accomplish your life goals and create the life you want.
- Create a crystal-clear vision of holistic success for “ultimate success” so you know exactly what you want, where you’re headed, and what you need to do to make it happen.
- Uncover and remove hidden challenges that may be sabotaging your ability to make changes that last or that are slowing down your progress in achieving your goals.
- Leave this workshop renewed, re-energized and inspired to finally achieve your life goals and manifest your life vision.
